Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1644

1. Claims 1, 6, 11, 16, 21, 52, 55 and 62-67 are pending.
2. The following new grounds of rejections are necessitated by applicant's amendment filed 5-13-05.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Koenig et al.
Koenig et al., teaches measuring CRP in blood at levels about 0.60mg/dl to predict future risk of coronary heart disease, a known diabetic complication (see figure 2 in particular).

The prior art teachings anticipate the claimed invention.

5. Claims 1, 6, 21, 55, 62, 63 and 66 rejected under 35 U.S.C. 102(a) and (e) as being anticipated by US Patent 6,040,147.

The '147 patent teaches predicting future risk of atherosclerosis, a known diabetes complication, by detecting CRP values in blood at levels about 0.60mg/dl (See figure 2, in particular), in addition the '147 patent teaches evaluating the likelihood than an individual will respond from treatment with an anti-inflammatory agent, lipid lowering agent or COX-2 inhibitor (i.e. aspirin) by measuring CRP in blood an obtaining values of 0.60 mg/dl or above.

Art Unit: 1644

The prior art teachings anticipate the claimed invention.

6. Claims 1, 6, 11, 16, 21, 52, 55 and 62-67 are objected to because of the following informalities: In claims 1, 6, 11, 16, 21 and 55 the recitation of "wherein the level of C-reactive protein is about 0.60 [or 0.30] mg/dl of blood" is confusing, it is suggested Applicant amend the phrase to read "wherein the level of C-reactive protein is about 0.60 [or 0.30] mg/dl in a blood sample from the individual". Appropriate correction is required.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
